Brief of Enayah Society

Enayah Society is one of the charity pillars in the kingdom of Saudi Arabia. It is registered in the National Center for Non-Profit Sector, under the registration no. (364) dated on 3/1/1428H. It aims to provide the health services via three paths (treatment, prevention and awareness), and targets the poor and low-income patients. Furthermore, H.R.H Prince Faisal bin Bandar bin Abdulaziz Al-Saud, Governor of Riyadh Principality, is the Honorary President of Enayah Society, while the Society's Board of Directors includes an elite group of H.E officials and Sheikhs, as well as a group of Saudi distinguished consultant doctors.

The Vision

A distinguished pioneer non-profit health organization

The Mission

A non-profit health Society aiming to enhance the human health and contribute to the health giving in the Kingdom of Saudi Arabia through a professional organization.

Institutional Development

Enayah Society follows, in its work, the institutional excellence methodology. Accordingly, it obtained many awards. In this context, it achieved via the Department of Excellence in 2023 the following:

Princess Seetah Award

The Society won Princess Seetah Award after meeting the award standards compliance requirements. In this context, a team from the award judging committee has visited Enayah Polyclinic to view the volunteering consulting clinic project and ensure its compliance with the award standards.

King Khalid Award

The Society won King Khalid Award for the Non-Profit Organizations Excellence (third place). This award is granted to the non-profit organizations that are registered in the National Center for Non-Profit Sector and are distinguished by their administrative performance and adopting the best practices followed to serve their beneficiaries.

"Great Place To Work" Award

The Society won "GPTW" Award from Great Place To Work Company, which is an international company specialized in measuring the model work environments according to the international standards and the measurement indicators that are internationally approved.

Sendian Award

Enayah Society won Sendian Award which targets the social initiatives that are distinguished by innovation in different fields such as humanitarian, religious, national, health, social, environmental and industrial fields. It adopts the ideas and initiatives that meet the individuals and groups needs.

Empowerment

In the light of empowering and developing the non-profit organizations, specially the emerging and distressed ones, the Society has implemented number of training and development programs to contribute to empower them and enhance their performance.
